Department of Computational Biology and Bioinformatics

Action Taken Report on the Basis of Alumni/Student/Teacher Feedback

The 7th BOS Meeting of the Department of Computational Biology and Bioinformatics was held on 29th Dec 2020. The meeting aimed to adding new Practical Courses to be offered to the Students of M.Sc. Bioinformatics. In this meeting suggestions received from Alumni/Students/Teacher regarding curriculum was acted upon and following employability oriented courses were incorporated.

S. No.	Name of the Course	Course Code	Year of introduction (Average Percentage)	Activities/Content with direct bearing on Employability/ Entrepreneurship/ Skill development	Page No.
1	PG Programme Bioinformatics (CBB)	BIN 411 Machine Learning –I BIN 554 Machine Learning II BIN 461 Elements of Data Sciences BIN 460 Biosafety issues BIN 405 Python Programing Lab I BIN 454 Python Programing Lab II	2020 (15%)	Coding Competition, Free lancing Classes, open Book Coding Competition, Machine Learning challanges, Automated house price decider, Automated flower based species identification	1-7+
