“Rethinking Tourism”

Tourism is a never ending phenomenon, which can be used both as a process and as a business option. It provides employment opportunity to people of all segments of society in all parts of the world. The COVID-19 pandemic impacted this tourism to a large extent. To bring tourism activities back on track various agencies all over the world are putting their best effort. World Tourism Organization (**UNWTO**) plays a leading role among all organizations in field of global tourism. World Tourism Day 2022 will be celebrated as shift towards tourism being recognised as a crucial pillar of development and progress is well underway. May 2022 marked the first time the United Nations General Assembly held a special debate on tourism, illustrating the historic relevance of the sector, Tourism is now agenda of government and international organizations in every global region.

The theme **“Rethinking Tourism”** will reflect this. It aims to inspire the debate around rethinking tourism for development, including through education and jobs, and tourism’s impact on the planet and opportunities to grow more sustainability. World Tourism Day will

- Provide platform for inclusive dialogue to identify solutions to realize tourism’s potential as a vehicle for recovery and transformation.
- Amplify the message of tourism as an inspirational and transformational force and the role of UNWTO and the whole of the sector in fulfilling this potential.
- Mobilize political will and cooperation to ensure tourism is a central part of policy making.

Ask big questions and identify solutions to realign tourism for the future.

Tourism Society of School of Tourism Travel and Hospitality Management, CUHP conducted its meeting on 09th

September, 2022 which was attended by the faculty and the students' members. In this meeting, it was decided to celebrate the **World Tourism Week 22nd - 27th September, 2022.**
